

To our clients regarding the situation caused by Covid-19.

We at Interdell are, like all cooperation, affected by covid-19. The situation in the world is daily monitored by our managers. We are observing what effects covid-19 has on the most frequent countries we ship to. We get daily information from our agents all over the world.

There are delays to some countries. Our goal is to make all we can to minimize the effects. In some cases we can offer storage service at one of our storage facilities. More information will be sent if this is required. But at the moment we are at business as usual.

Interdell has taken the following precautions:

- We are following the recommendations by the authorities regarding hygiene and individual distance.
- Some of our staff members are working from home
- We are using our phones and digital tools for our meeting

We can be contacted by phone or email so don't hesitate contacting us regarding your upcoming assignment. Our business is running as usual and we still ship cargo to every corner of the world
